

# CelsiusPro

## Lea Mueller, Head of Consulting

---

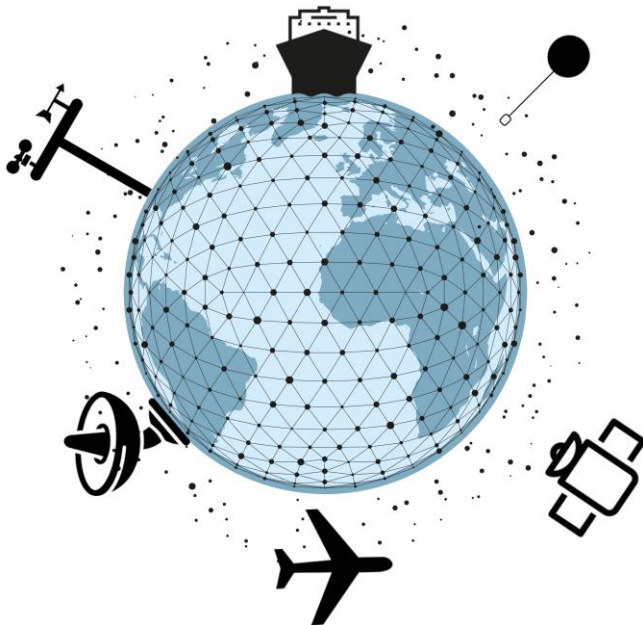

- Thanks to big data we can extend the boundaries of insurance and reach more people and cover new perils.
- CelsiusPro provides a platform to enable large-scale distribution and manage index insurance schemes
- CelsiusPro is a key partner in ISF's flagship project for drought insurance in South Africa. We aim to insure up to 240'000 smallholder farmers and families by 2021.

Cutting-edge  
insurance platform  
★★★★★

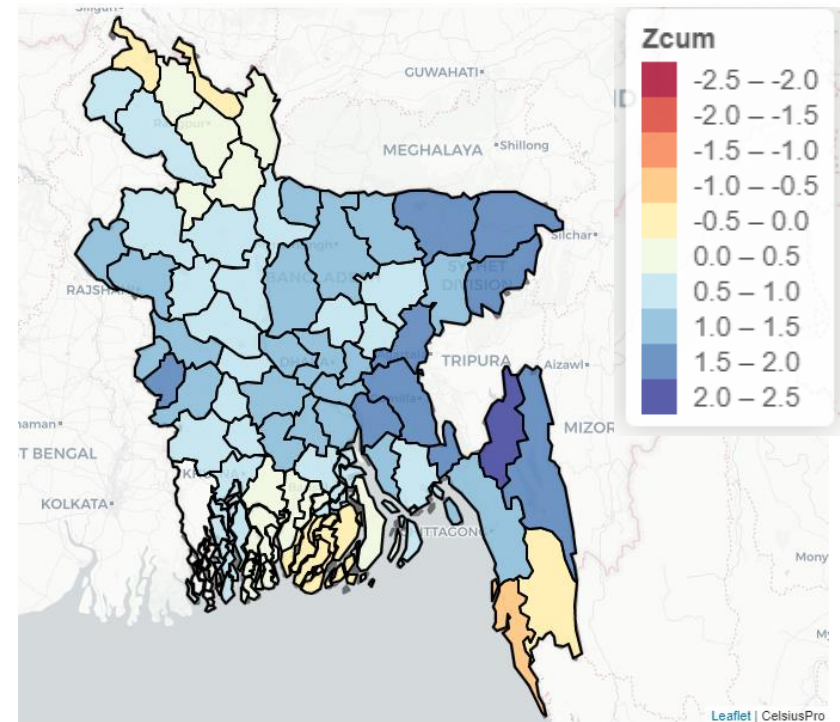

# Technology extends the boundaries of insurance and we reach more people and cover new perils

- We have an inhouse database of all relevant datasets for weather index: 180 million data points per day

Extreme rainfall in June/July 2017
