Payment and
Policy issuance

UNIQUENESS

- First of its kind to use Whatsapp chat for policy issuance.
- Simple user friendly process to encourage direct selling.
- Chat can support regional language resulting in better reach/adaptability
- Easy access to Products, making them available at fingertips.

CHALLENGES

- Design Complications
- Reducing no. of questions and data input points
- Payment mode – Currently whatsapp Pay is not that common
- Making it customer friendly

Project Result

**Under Beta mode to
finetune the E2E flow.**

**More than 1000 policies done within
few days of roll out**

**Access to hinterland giving customers better
choice and more bargaining power.**

**Connecting the buyer and seller as a modern
form of digital market place.**

Unveiled in the Facebook Fuel for India campaign
