LESSONS LEARNT

Hollard.

It is important for insurers and aggregators to agree on lower charge rates and profit share in the beginning of the project to make it work

It is important for insurers to do a pre and post product campaign

Consumer awareness is key

Rewards are a must to boost production

Loyalty programs are key

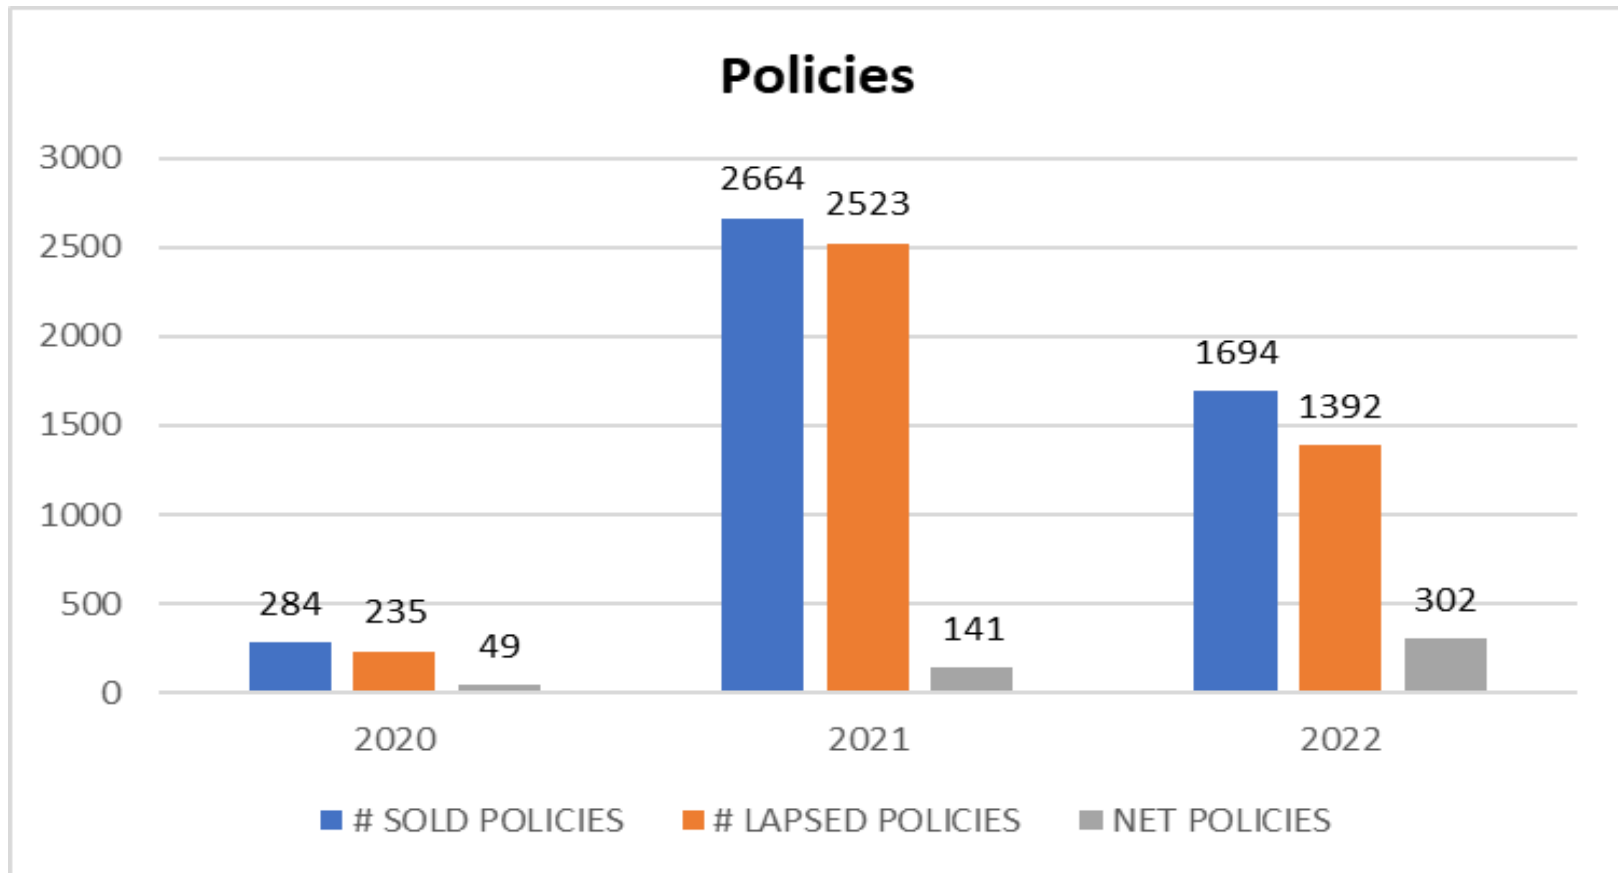

Visibility is a must on social media

PRODUCT APPROVAL

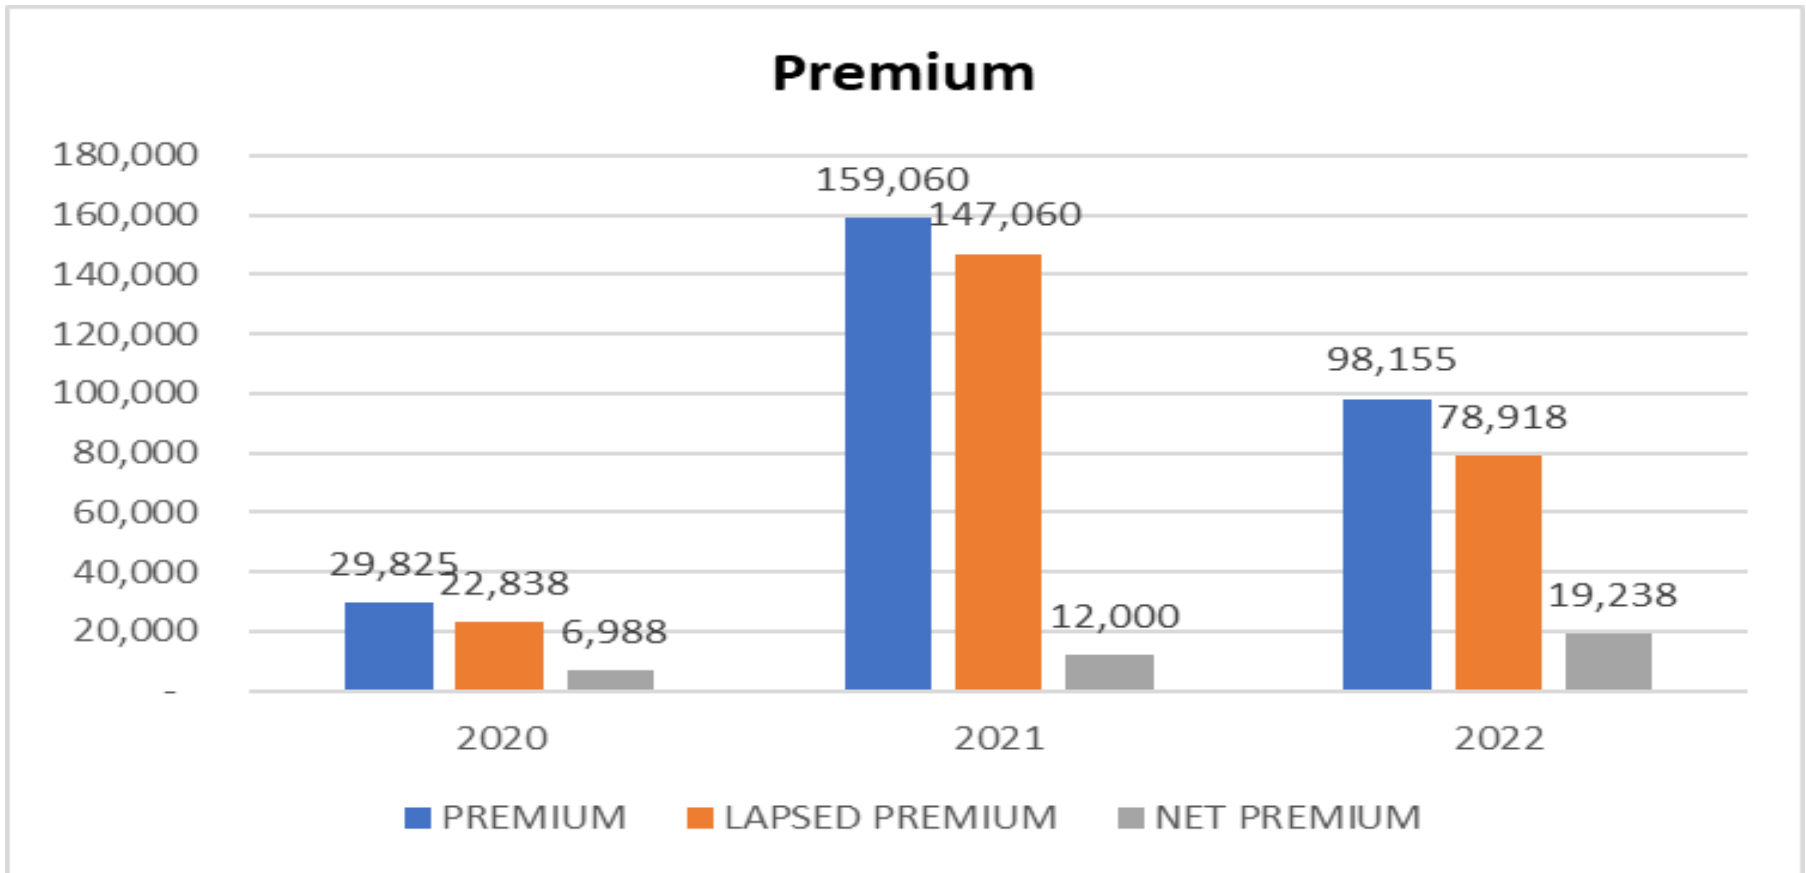

- Agents not allowed to distribute Life product and motor third party as an additional product in store

SUNGANANI POLICIES

Sunganani has a high lapsation rate from inception

Low premium persistency rate

Breakdown of Mobile money and Cash transactions

Cash sales remain on the rise month on month while mobile money and DDAC transactions remain stagnant. 69% of the mobile money transactions in the month of March were done via Airtel , while 31% were done via MTN..
