

ICII 2023 Accra Ghana

October 2023

IBISA is an Insurtech
focused on providing
end-to-end solutions to
protect businesses and
communities against
Climate Change

Because communities and businesses are not ready to win the fight against climate change

INDIA

130k dairy cooperatives lose +3.4M tons of milk annually due to high temperatures

PHILIPPINES

2 million farmers are at risk of losing their entire harvest to typhoons

SENEGAL

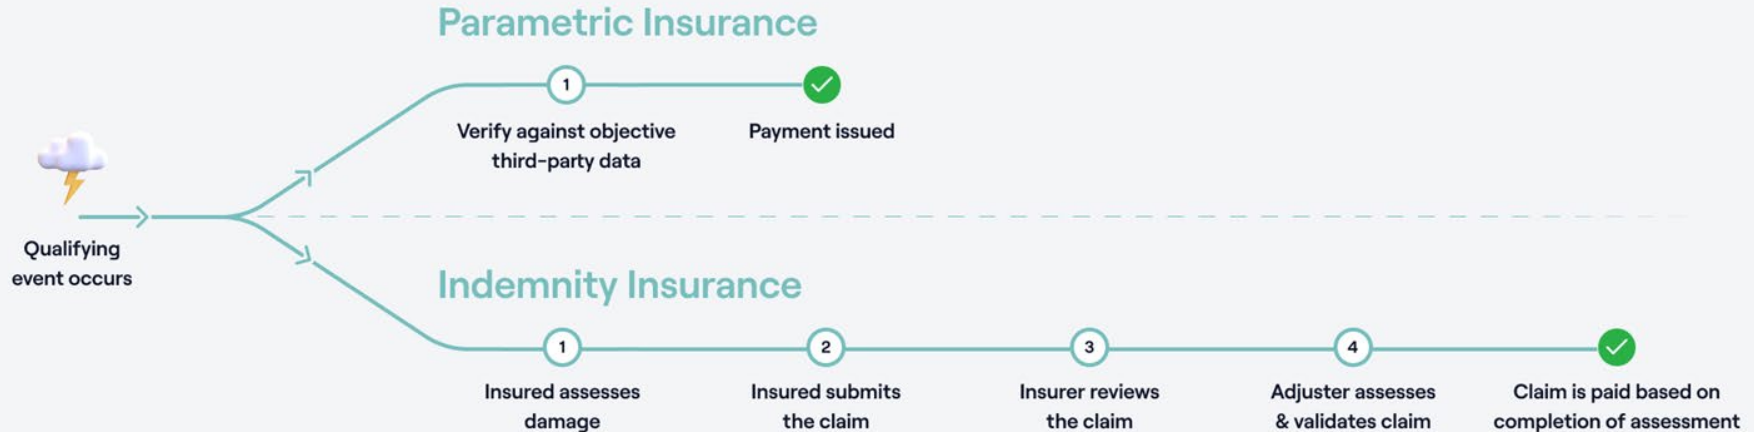

1 million West African breeders could lose all their livestock if there is no fodder due to drought

Tomorrow is too late

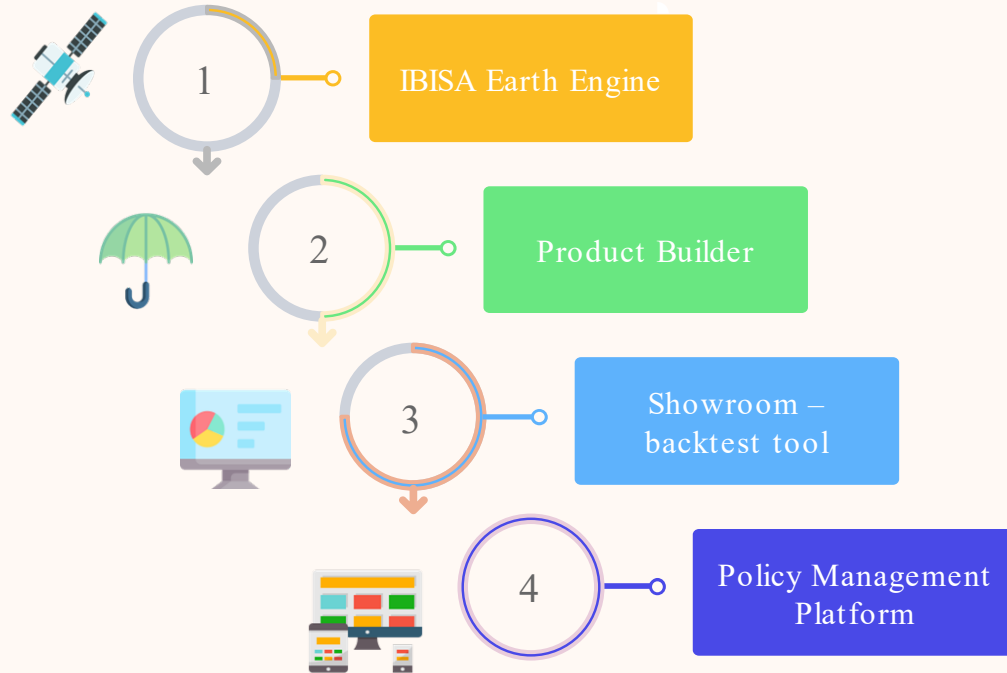

We design and operate innovative parametric insurance coverages

Traditional insurance models have struggled to provide affordable, accessible, and effective coverage for these vulnerable farming communities

Technology

IBISA Backtesting Tool

Welcome, Dorien admin
dorien+admin@ibisa.network

| Date | Type | Value | Trigger |
|-------------|------|--------------|---------|
| 16 Dec 2021 | rain | 156.958 mm | ● |
| 16 Dec 2021 | wind | 197.917 km/h | ● |

Rows per page: 5 | 1-2 of 2

IBISA always works with local underwriters

PPPs are very good tools to help scale innovative insurance products at an early stage in low-income areas

Grant funding

Underwriting & last mile distribution

Provider of smart farming advice

Technical data provider

Tomorrow is too late
