

WORLD RISK ADAPTATION FUTURES – SOCIAL PROTECTION

Global trends in Social Protection

CASE STUDY PRESENTATION BY THE PARTICIPANTS – PART 2

supported by the "World Risk and Adaptation Futures Summer Academy" programme

24 September 2020

Organized by

In cooperation with

The concluding part of this webinar series aims to showcase 13 different approaches to understand and address the climate change and social protection nexus from across the globe. These pioneer cases studies have the potential to be lighthouses of enhanced academic, policy and practitioner understanding in this field.
