

Julia Martinez
Coordinator Microinsurance Management

Background:

Julia Martinez was trained as an industrial clerk. Before she started to work at the Munich Re Foundation, she worked for 13 years in various departments within Munich Re in Munich, such as Central Procurement Dept., Knowledge Management and the Geo Risks Research / Corporate Climate Centre of Munich Re.

Responsibilities at Munich Re Foundation:

Julia Martinez started working for the Foundation as a coordinator on 1 October 2014. She is responsible for organisation, travel and event for international microinsurance conference.

About the Foundation:

The Foundation's work addresses major global challenges: the fight against poverty, environmental and climate change, water as a resource and risk factor, demographic development and disaster prevention – and supports people in risk situations.
